

Whiteshell Provincial Park

Vegetation maintenance work update

Vegetation maintenance work taking place in Whiteshell Provincial Park

Work occurring between spring 2025 and winter 2026

Manitoba Hydro crews will be undertaking vegetation management work, including trimming and removing hazard trees, and mechanical brush clearing for any trees that pose a danger to our lines along various distribution feeder lines within Whiteshell Provincial Park.

Although not anticipated, scheduled daytime outages may be required for safety reasons, and customers will be notified 48 hours in advance.
